

# SAFETY INFORMATION FOR ARTICLES

## Identification of the article and the company

Trade name: tesa® 58291-00000-00

Manufacturer / Supplier: tesa SE  
Hugo-Kirchberg-Straße 1  
22848 Norderstedt  
Germany

Informing department: tesa SE, Corporate Regulatory Affairs,  
[SDS@tesa.com](mailto:SDS@tesa.com)

### Safety information for articles

The majority of adhesive tapes produced by tesa® qualify as articles under the definition provided in the REACH Regulation (EC) No. 1907/2006. In accordance with REACH Article 33, there is no legal requirement to provide a safety data sheet for an article.

The comprehensive information typically shared within a safety data sheet can be found in tesa® safety information sheets.

We would like to emphasize that these information sheets are voluntary and do not fall under the requirements of the REACH regulation.

## Hazard Identification

Classification (CLP): Substances and preparations marketed in a specific form or within specific containers need not to be classified according to the REACH Regulation Article 3 (3).

Label elements (CLP): Substances and preparations marketed in a specific form or within specific containers need not to be classified according to the REACH Regulation Article 3 (3).

## Composition / Information on ingredients

General chemical description: Manufactured item – article:  
Backing: Paper  
Adhesive: Mixture of natural rubber, resins and additives

## First aid measures

### Inhalation:

Move to fresh air. If symptoms persist, seek medical advice.

### Skin contact:

Rinse with running water and soap. Obtain medical attention if irritation persists.

### Eye contact:

Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor.

### Ingestion:

Rinse mouth, drink 1-2 glasses of water, do not induce vomiting, consult a doctor.

## Firefighting measures

Suitable extinguishing agents: CO<sub>2</sub>, extinguishing powder, or water jet. Fight larger fires with water jet. Use appropriate firefighting measures.

Special hazards arising from the substance or mixture:

Can be released in case of fire:

Nitrogen oxide (NO<sub>x</sub>)

Carbon monoxide (CO)

In some fire situations, it is possible that additional harmful gases may be present.

Advice for firefighters:

In case of fire, keep containers cool with water spray.

Protective equipment:

Put on breathing apparatus.

Do not inhale explosion gases or combustion gases.

## Accidental release measures

Personal precautions, protective equipment, and emergency procedures

Avoid contact with skin and eyes. Wear protective equipment. Ensure adequate ventilation.

Environmental precautions Do not empty into drains / surface water / ground water.

Methods and material for containment and cleaning up Scrape up as much material as possible.

Sweep up spilled material. Avoid creating dust.

Keep in suitable and closed containers for disposal.

## Handling and storage

Precautions for safe handling Avoid skin and eye contact.

The appropriate industrial and environmental safety measures must be taken for processing steps which cause dust.

Ensure good ventilation/exhaustion at the workplace. Take note of emission threshold.

## Exposure controls / personal protections

Ensure good ventilation/extraction.

Respiratory protection:

An approved mask or respirator fitted with an organic vapor cartridge should be worn if the product is used in a poorly ventilated area Filter type: A (EN 14387)

Hand protection:

Avoid repeated and prolonged contact with the skin, use protective gloves.

If signs of wear and tear arise the gloves should be replaced.

Eye protection:

Wear protective glasses. Protective eye equipment should conform to EN166.

Skin protection:

Wear suitable protective clothing.

The information provided on personal protective equipment is for guidance purposes only. A full risk assessment should be conducted prior to using this product to determine the appropriate personal protective equipment to suit local conditions.

## Physical and chemical properties

Form: solid

## Stability and reactivity

Stable under recommended storage conditions

## Toxicological information

No data available.

This article does not contain any substances that are assessed to be a PBT or vPvB.

## Ecological information

No further relevant information available.

## Disposal considerations

Waste treatment methods Product disposal: Do not empty into drains / surface water / groundwater. Dispose in accordance with local and national regulations.

## Transport information

Not applicable. Not dangerous according to the above-mentioned specifications.

## Regulatory information

A Chemical Safety Assessment has not been carried out.

## Other information

We certify that the above information and statements, including but not limited to the product composition data, are valid and correct to the best of our knowledge. We have implemented systems to the best of our ability to ensure that tesa® products are compliant to global environmental regulations and laws. However, not all materials in our products may have been independently tested for their substance content. We are also not in a position to make statements or provide information about our customers' products in which tesa® products are incorporated, unless the relevant information and statements are exceptionally included (marked) above. However, we cannot assure the correctness and validity of these information and statements.

In the event of any issues arising from the information and/or statements contained in this document, our General Terms and Conditions of Sale (Terms & Conditions - tesa®) shall apply.

Any conflicts between the information in this document and written contracts will be resolved in favor of the contracts. The information and statements in this document or this document itself do not have the effect of amending any of these contracts.

The product (product group) is considered non-hazardous according to current legislation, and this document will not be regularly updated.

This information sheet for articles is voluntarily produced data sheets based on Article 33 of Regulation (EC) No 1907/2006 and therefore not being updated on a regular basis.
