Features/Advantages Benefits

Features	Advantages	Benefit
Acrylic Adhesive	High adhesion performance	Holds up to 7 kg
	Good holding power	Works on many surfaces, including painted dry walls
Polyethylene foam	Good conformability and internal strength	Increased weight hanging capacity
Green paper liner	Easy liner release	Good handling, easy to use

Application

Application temperature is 10°C – 38°C. Bond strength is dependent upon the amount of adhesive - to - surface contact developed. Firm application pressure helps develop better adhesive contact and improve bond strength. Entire tape surface must adhere completely to both sides

To obtain optimum adhesion, the bonding surfaces must be clean, dry and free of dust. Typical surface cleaning solvent are rubbing alcohol or water. Do not use household cleaners.

This is a permanent tape and may cause damage if removed. Do not use on delicate or curved surfaces, or areas where injury might occur if mounted object fell. Ensure that surface is strong enough to hold mounted object.
