Product Information Sheet

Scotch® Removable Carpet Tape

General description

Scotch® removable carpet tape is a powerful double-sided tape with one side permanent and the other side removable. This carpet tape can be removed cleanly but also remains securely in place for as long as you want it to. Scotch® removable carpet tape is the ideal solution for temporary decoration, making it perfect for many events like trade fairs.

Product Characteristic	Typical Value*	Test method
Backing	LDPE semi-transparent	-
Adhesive	Eternal face: transparent hotmelt synthetic rubber Internal face: removable acrylic	-
Standard roll length	50 mm x 7 m and 50 mm x 10 m	-
Color	Blue	-
Total thickness	145 µm	PSTC 33
Peel 180° on SLS	Closed side: 1.4 N/cm Open side: 2.5 N/cm	AFERA 4001
Liner thickness	80 µm	PSTC 33
Operating temperature	-10°C to 50°C	Internal

*These are average values. 3M does not guarantee every product will have these specific test values. Actual values may vary and may be greater than or less than the averages listed.

Key benefit

Ideal for temporary use during fairs or special events.

Storage

To obtain best performances, store this product under normal condition of 21°C and 50% relative humidity in the original packaging and use it within one year from date of purchase.

Application

Application temperature: 10°C to 30°C.

Can be applied on delicate surfaces like marble, wood floor, tiles.

- The entire tape surface must adhere completely to both sides. To obtain optimum adhesion, the bonding surfaces must be clean, dry and well unified.
- Clean the surface with isopropyl alcohol. Do not use household cleaners (generally greasy products that leave a layer on surfaces and make them hard to stick to).
- Apply the tape on the floor and press it (the no residue adhesive part is the one that does not have a liner – internal face/closed side).
- Remove the liner and apply the carpet on the rug, press firmly (firm application pressure helps develop better adhesive contact and improve bond strength).

Warning

Do not use for mounting objects on vertical surfaces.
