

Product Information Sheet

Name: Vileda Aluminum Foil

Composition: 100 % 8006 Aluminum alloy foil

Description: Vileda Aluminum foil is the ideal, flexible and practical helper in the kitchen, e.g. for packing your food.

Properties: Brick structure makes the foil extremely tear-resistant and yet flexible. Hot and cold foods can be packed in a leak-proof manner.

Heat resistant up to 600°C – baking and grilling at high temperature is no problem.

Can be individually cut to size, regardless of whether you want to make small cuts for packaging or lay out your baking tray over the entire surface.

Easy to cut - thanks to the robust plastic teeth on the packaging, the foil can be easily and cleanly torn off the roll - always just as much as you need

Storage: Cool and dry, avoid exposure to direct sunlight.

Disposal: Waste disposal according to current local regulations.
